

We want to offer our Marina for the enjoyment of all HMC Members. This Labor Day Holiday weekend is expected to be busy. Please be respectful to all Members, boaters and non-boaters, when using the North Beach Boat Docks.

An increasing number of Members like to fish, crab, or just dangle their feet in the water at the North Beach Boat docks. These Members are encouraged to use the ends of the docks for these activities, rather than the broad areas along the dock where boats may be moored. Members who want to moor their boat at the dock are also encouraged to utilize areas that are open and not actively used by non-boaters first. Boats will have priority for moorage in all areas other than the ends of the docks and any non-boater may have to move to allow a boat to moor.

Thank you for your cooperation here.
