

## **Island Manager Report February 2020**

### **Administration:**

**HMC Water** will no longer have a manager; NW Water is the registered manager (get term here) for HMC with the county and state. Monthly meter reading will be done and HMC inspections will continue. NW Water is responsible for inspections reporting to the county and state, this is not a change but has been required since the inception of the HMC Water.

Contact the [HCMWater@herronisland.org](mailto:HCMWater@herronisland.org); or [HMCManager@herronisland.org](mailto:HMCManager@herronisland.org) for repairs only on island property. All other repairs are for the homeowner to find a repair person. Emergency repairs should be reported to NW Water and [HMCManager@herronisland.org](mailto:HMCManager@herronisland.org). NW Water will find emergency provider if this is outside their scope, such as, Washington Water.

- ??????Note per HMC Water Policy, members must gain approval for repair companies
- HMC's audit under way
- Note, at times, due to high winds and tides, the ferry captains may decide to load fewer cars to allow for safer passage on the ferry. They will then shuttle as needed.

### **Departments/Committees**
