

## "WATER COMMITTEE NEEDS YOU!"

The Water Committee needs your help to complete the task of predicting the number of hook-ups and stubs we may need in the future. The information will be used to provide members with accurate and complete information. Thanks to everyone who did reply to the first survey. We are *asking all members who have not replied* to take time now to do so. We need this information to move forward.

### .....Terms defined.....

"**Complete water service**" or "**hook-up**" means: service line, check valve, and water meter. (The State of Washington requires meters at each residence by 2017 to monitor water use and loss).

"**Stub**" means: plumbing in the new system that is underground and pre-planned for a potential hook-up in the future. This greatly simplifies and provides for availability of future water hook-up for an additional fee. An owner with more than one lot who anticipates POSSIBLY selling one of them in the future would probably want a stub placed at the lot so that water service will be available for that lot.

.....

This survey is for information ONLY! By responding, you are not voting or signing up for anything. We need your help so the committee can provide members with complete and accurate information for future decision making.

How many Herron Island lots do you own? \_\_\_\_\_

In the new water distribution system:

How many complete water services will you need? \_\_\_\_\_

How many stubs for possible future use will you need? \_\_\_\_\_

Please specify which lot(s) you will want complete services and/or stub(s) on. Use a second page if necessary. Thank-you!

Member's Name: \_\_\_\_\_

Member's Island Address: \_\_\_\_\_

Member's Contact Information: \_\_\_\_\_

Please *mail* your completed survey to: HMC Management, PO Box 119, Lakebay, WA 98349, or email it to: [Office@HerronIsland.org](mailto:Office@HerronIsland.org).

Thank you for your cooperation.

Working hard for you!  
The Water Committee
