**Metal Storage Cabinets Available**

**The Boosters organization recently provided the Community Center with new wooden storage cabinets making the old metal cabinets obsolete. These cabinets are still functional and are being made available to members for purchase. There are several full size cabinets in various configurations (with shelves, and/or garment hanging rods) and any interested parties should visit the Community Center to view the cabinets and place a bid. Bids will be accepted until 12/31/08.**
