

Ballot Measure

June 9, 2001

BEACHCOMBER *May, 2001*

HMC BOARD CANDIDATES

HMC has a Board of Trustees elected by the general membership. This Board oversees, in an advisory capacity, the Parks, Water, Transportation, Land Use, Finances, Roads, Rules, and Emergency issues of the island. The Island Manager takes care of most of the day to day business.

There are four Board positions open this year. A member is elected to the board for a two year term. Any interested member may submit a resume in order to be placed on the ballot and considered for election. ***The following resumes have been written by the candidates themselves.***

CANDIDATE: KEN FREEMAN

YEARS AS A MEMBER: 5

OCCUPATION: Retired aerospace engineer

PROFESSIONAL EXPERIENCE: Transport aircraft navigator, U. S. Navy, four years; Engineer, TRW, 27 years, involved mainly with computer simulation of flight characteristics and management of associated budgets.

EDUCATION & TRAINING: B. S., Electrical Engineering, Michigan State University, 1961; M. S. E., Electrical Engineering, University of Michigan, 1963.

HMC EXPERIENCE: Vice-President, HMC Board of Trustees; Chairman, Emergency Preparedness Committee; Member of Finance, V-CART and Transportation Committees; Volunteer EMT, Key Peninsula Fire District; generated computerized island maps for HMC office and tide prediction graphs for ferry scheduling.

GOALS: (1) Assure solid fiscal and legal positions for the island at prudent cost,
(2) Promote communication between all HMC members and the Board.

CANDIDATE STATEMENT: As a full-time island resident and retiree, I have the time and desire to contribute to island business and welfare wherever I may be effective. Since being appointed to a board vacancy last year, I have had the opportunity to work with the current board and the island manager and have tried to get involved in a cross-section of island activities. If elected, I invite any members with concerns about board policies to call me to discuss the issues. As in any owners' association, we can't please everyone and can expect some complaints no matter what we do. However, I will continue to support submission of the more costly and controversial proposals to direct membership vote and will try to insure that all dissenting members' views are heard before board actions are taken.

CANDIDATE: Bill Turpin:

- I am a retired "Fire Fighter" and my wife and
- I have owned property on the Island for thirty eight years.
- I am currently serving on the board and am the chairperson of the Land Use Committee.
- There are many projects before the board and I would like to see them carried through to completion.
- In years past I have served on the board as Water Chairman, Secretary, and Road Chairman.

If you elect me I will work to keep Herron Island the great place it is to live, visit, and enjoy. I would appreciate your support. Thank you.

CANDIDATE: Janet Podell

My name is Janet Podell and I have been a member of the Herron Island community for two years. I hope to build a cabin on my small lot at the south end of the island and eventually retire there. Over these past two years I have really come to appreciate what a remarkable and magical place Herron Island is, and feel that I can offer some of my personal time to help contribute to its successful operation. For the past year I have been serving on the Finance and Communication committees and through this involvement have experienced a glimpse of the how the island is managed. As a Board Member I would have exposure to the other operational components which keep the island running smoothly and perhaps could utilize some of the business skills I have acquired over the years for the benefit of this community. I believe that Herron Island is a beautiful and unique place that continues to need the stewardship of people who are committed to maintaining its viability.

Experience and Skills

I have worked for The Boeing Company for 14 years as a Buyer and Procurement Manager. I currently manage a group of Buyers who are responsible for the purchase of various supplies and services for Boeing facilities. This computes to about \$150+ million per year over which I have direct responsibility. My procurement and business experience actually precedes Boeing by about 13 years. I worked in the Aerospace industry in Southern California during those previous years and bring a total of 27 years of business experience to the table. Additionally, over the course of my career I have managed process improvement teams and developed employee recognition programs. I have strong communication skills and pride myself on being organized. The nature of the work I do also requires me to hone and practice my problem solving skills on a daily basis.

In summary

I believe that a Board member should serve the community with skill, commitment, and a high degree of common sense. I have observed the current and past Boards and have witnessed first hand the talent, skill, and commitment they bring to the table. I believe I possess some of the necessary attributes and would be honored to serve as a Board member.

CANDIDATE: William P. Zazzo

Herron Island is rapidly becoming my second home. I would like the opportunity to put my varied experiences to work for the Island.

I'm a seasoned, hands-on manager with experience in all operations, management, and support aspects of major operations, institutions and facilities.

HIGHLIGHTS

- Experienced in dealing with Foreign and Domestic companies.
- Planned and executed annual operating and maintenance budgets up to \$4.5 million.
- Management by Objective with full-team integration and cultivation of self-sufficiency.
- Ship Superintendent and Project estimator reviewing specifications and preparing bids for projects up to \$6 million.
- Worked with State of Washington, U.S. Coast Guard, OSHA/WISHA, EPA, ABS, LLOYDS of London and DNV concerning engineering, construction and safety requirements.
- Supervised departments of 55 people in plant operation and maintenance as well as organizations up to 150 including engineers, technicians, union craft labor and sub-contractors.
- Coordinated the storage, transportation and disposal of all dangerous/hazardous waste generated within the department.
- Co-Author of Preventative Maintenance Programs used worldwide.
- Experience with multi-ship overhauls at various shipyards.
- Qualified Training Specialist applying critical judgment and professional competence in the development of instructional materials, resulting in increased student motivation and proficiency that enables students to achieve their professional goals.
- Crisis management and day-to-day management of company operations.

Thank you for your consideration.
