News from Waste Connections for Island Customers

This is from Andrea Ditzler, Office Manager, for Waste Connections Inc.

(This assumes that the ferry will be out of service for three weeks.)

Garbage will miss 10/17, 10/24, and 10/31.

On 11/7 we will have customers triple up on their service.

Yard waste will miss 10/17 and 10/31. On 11/14 we will have customers double up on their yard debris (customers can either put in a garbage can labeled yard waste or in bio degradable bags which are available at most home improvement stores).

Recycle will miss 10/19. On 11/2 we will have customers double up on their recycling, items can be put in a cardboard box clearly labeled recycle.

If ferry is not up and running by 11/2 we can shift the recycle plan to their next pick up on 11/16.

Please let me know if I can provide any further detail and thank for getting the message out to customers.
