

Island Manager Report

October 12, 2019

Administration:

- Thank you to all the volunteers who planted daffodils, removed rubber chips and replaced with playground chips at Goodpastor, prepared the water truck for winter storage, repaired the Water Dept generator, re-hung the sign on the ferry shed AND vacuumed the spiders from the Community Building-this being much appreciated!
- HMC will soon have ramp inspections on the island and mainland ramps. This is done every two years on the mainland and every four years on the island and is required.
- HMC is also due for cables and pulleys inspection and potential replacements, this will be done in November, more to follow.

Departments/Committees

Maintenance: Gary Wanzong to report

Parks: Dale Miller to report

Policies: Mike Gage -to report

Roads: Dan Marten – to report
