

September 25, 2015

We have confirmed with American Disposal that they will pick up residents' trash on the normal schedule, Monday, September 28. Massana Construction has ok'd this onetime vehicle access to the island in order to assure this important service. American Disposal will contact its customers by telephone later in the day SUNDAY.

American Disposal will also be attempting to arrange recycling service on Wednesday, September 30. This will be part of their notification to customers.

Optimistically, if the weather cooperates, full vehicle service MAY resume on Wednesday, but more likely THURSDAY. Note that the modified schedule for next week's passenger only runs includes additional service in the morning and afternoons, but without noonday runs.

If you have questions, please email hmcmanager@herronisland.org or memberinput@herronisland.org.

Thank you.
