

9/30/2015 8:45 AM

Just got the word from our contractor, Scott Swenning of Massana Construction, that the ferry ramps can open for business Wednesday afternoon [for the 3:30 run](#). The fire department has been notified and we will inform the other utilities as well.

Possibly there will be some touchup work later in the week, but it should not affect ferry traffic.

Project complete in half the time, with perhaps some budget savings as well.

Thanks to everyone for their cooperation and patience.

Hallelujah!
