

The Beachcomber

HMC Newsletter

August 2018

President's Message

First up, I'd like to introduce and welcome our newest Board member, Bob Hartnett. Bob has been appointed to fill the Board seat vacated by Karen Starns for the remainder of her term. Bob and his wife Diana have been HMC members for five years and have been frequent volunteers in many events and work parties. They plan to move to the island full time when they retire in the next couple of years. Bob will be our Member-At-Large. Be sure to say hi when you see him and Diana out and about. You'll recognize him by his big beautiful dog Willow who likes to take Bob for an occasional walk around the island.

As we go to press for this Beachcomber, the asphalt repair of Ferry Road is scheduled for August 15-16, 2018. (And it may be done by the time you read this.) The Board wishes to express their sincere appreciation to the volunteers who will be helping to direct traffic around the work zone for each ferry run. They are volunteering their time and allowing the work to proceed with no interruption in ferry service.

Speaking of asphalt, it was reported at the July Board meeting that the asphalt contractor hired to repair Ferry Road had made it known that he would be willing to lay asphalt on members' properties for a reasonable rate given the economies of scale that a large volume of work would generate. Some members have expressed interest in taking advantage of the opportunity to have asphalt installed on their driveways. It's important for members to remember that if you wish to have asphalt installed that extends onto any HMC right of

way contiguous to your driveways, you must first seek permission from HMC. If you are not sure of exactly where your property line ends and HMC's right-of-way begins, see the Property Lines article further down in this Beachcomber.

The ferry crew is reporting that having a second deckhand on weekends collecting fares on the mainland during times when the ferry is shuttling is working as intended. They have been able to keep vehicle traffic moving during "bump and run" trips. This is helping to keep the vehicles that are lined up on Herron Road moving and should ease the concern of our mainland neighbors. There are still some reports of vehicles leaving their doors open when parked on the hill. It appears to be mostly guest vehicles that are partially blocking the left lane. Members, please advise your guests to keep their vehicle's doors closed while parked. Also, we are still seeing guests arriving at the ferry dock without a guest pass. The crew will not check any guest vehicle in until a fully completed guest pass has been presented for passage on the ferry. Your guests will be denied boarding and will have to wait for a later ferry run while they secure a valid guest pass. Members, you may give a guest pass to a crewmember in advance of your guest's arrival but it is not their job to call you for a pass or prepare a guest pass on your behalf. Please help the crew to keep the traffic moving by following this rule.

The Roads Committee is working hard to plan for our upcoming rainy season. Last winter's rains caused many ditches to overflow due to brush and debris that accumulated over the years. This overflow caused severe damage to the roads

(Continued on Page 2)

President's Message
(Continued from Page 1)

around many parts of the island. The HMC Rules (Article C9) requires members to maintain the ditches and culverts around their property even though they are owned by HMC. The Roads Committee is requesting that members who have not already done so, clean out their ditches and culverts by September 1, 2018 in preparation for road grading. Any ditches that have not been cleared prior to grading will be cleared by an off-island contractor and charged to the member in accordance with the member approved fee schedule. It's in everyone's best interest that our roads remain in good condition so please do your part.

There has been lots of discussion lately about the availability of the North Beach small boat docks. Every so often we are forced to remind members of the rules governing the use of the small boat docks. All HMC members are entitled to use the boat docks on a 24 hour basis. And while our population is growing more boats are scrambling for a spot on the docks on the weekends and holidays. These docks were never intended to be used for summer moorage. We need to share the spaces available. The 24 hour rule was put in place for reasons of sharing and was voted on by the membership in the HMC Rules. And if you have a smaller boat please don't occupy a space that a larger boat would need to safely dock their vessel. The smaller boats are more maneuverable, so please be considerate.

There's more information about docking at North Beach further down in this Beachcomber.

The upcoming Labor Day weekend represents the last major holiday of the summer season. Everyone should take advantage of the fun events that the Boosters have planned and enjoy the final days of summer. Shortly after that (Sept.15th), the ferry will be departing for an approximate two week absence for its biennial out of water maintenance service and Coast Guard inspection at a shipyard in Seattle. If you are a member who will be closing up your property for the winter remember to ensure that you have secured everything tightly and your ditches are clear. You may also wish to turn off your water at the meter to avoid any possible water leaks that may occur on your property during your absence.

Just because Summer is ending does not mean that fun times stop on Herron Island. There will be a couple of wonderful Booster events that will carry us into the Fall/Winter months. One event on the agenda is an Oktoberfest Potluck scheduled for October 13th. And our ever popular, almost famous, fabulously attended Thanksgiving Potluck scheduled for November 10th. Save the dates! Details for these events will be posted as soon they are finalized. So stand by and get ready for some Autumn fun.

Emergency**911****Ferry Cell phone****(253) 691-1457**

(Cell phone to be used for scheduling heavy loads, big vehicles or having something in tow, and for information regarding ferry services.)

Ferry Business

- Call ahead if you are planning to use the ferry for a trailer, boat, or large vehicle!
- Only those guests with valid passes will be allowed on the ferry.
- Plan your arrival at the dock at least 5 minutes before the scheduled time of departure.
- Walks-ons are not to be on the dock or ramp when cars are being loaded. Watch crew for permission to board.
- Only service and delivery people may charge fares.

WE HAVE EXPERIENCED GUESTS AND SERVICE PEOPLE EXPECTING TO COME OVER TO THE ISLAND WITHOUT GUEST PASSES. THIS VIOLATES THE ACCESS POLICY THAT WAS PUT IN PLACE FOR ALL OF OUR SECURITY. PLEASE MAKE SURE YOUR GUEST HAS A VALID GUEST PASS SIGNED BY YOU TO ENSURE THEY ARE ABLE TO RIDE THE FERRY. BLANK GUEST PASSES ARE AVAILABLE TO MEMBERS AT THE OFFICE, BY MAIL, AND ON THE FERRY.

Nondiscrimination Statement

If you wish to file a Civil Rights complaint of discrimination, complete the USDA Program Discrimination Complaint form, found online at:

http://www.ascr.usda.gov/complaint_filing_cust.html

or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form.

Send your completed complaint form or letter to us by mail at:

**U.S. Department of Agriculture
Director, Office of Adjudication
1400 Independence Avenue, SW
Washington, D.C. 20250-9410**

Or fax to (202) 690-7442 or email to

program.intake@usda.gov

Beachcomber news items must be submitted by 5:00 PM on the Wednesday after the monthly Board meeting on the second Saturday of the month. Items MUST be emailed in electronic format to beachcomber@herronisland.org. Include your name and phone number in case any questions arise. Paid advertisements are to be arranged with the HMC office PRIOR TO PUBLICATION.

Island Manager Report**August 2018**

Applause to all HMC volunteers !!

All of these things (and more) happen because of them:

- White Boards
- Community Center upkeep
- Parks projects
- Roads projects
- Water projects
- Policy updates
- Website
- Events
- Tech support
- Service provider arrangements
- Water truck deployment
- Errands

Administration

The office has been extremely busy this summer taking care of hundreds of details making sure all business is effectively conducted for HMC. Thank you to everyone for helping out.

Ferry

Final arrangements and planning are under way for the dry dock September 15 - 30. On September 15, Captain Joe Taylor, will pilot the ferry to Seattle. This means he and crew, Charlie and Dan, will leave in the morning and arrive sometime around 5 p.m. at the shipyard. The ferry goes about 6 knots so it is a long day to get up there and through the Ballard Locks.

The shipyard will ready the ferry with washing of the hull for USCG inspection and then continue working per the specifications HMC will provide.

Ferry Safety

Please ensure you follow crew directions when loading on the ferry, they have a line of sight drivers do not. When accidents happen it is often because drivers are looking at their mirrors and not at the crew.

(Continued on Page 5)

Island Manager Report
(Continued from Page 5)

In addition, when exiting on the ramps the vehicles are beyond the control of the crew, please guide vehicles accordingly to avoid ramp rails.

Dry Dock Emergency Planning for Sept. 15 - Sept.30

As in years past HMC will let you know should the dry dock period require additional time due to unforeseen circumstances, it is not anticipated this will happen, however, a repair could take additional time.

FD 16 has been alerted of the dry dock period and are again working on a plan for emergencies. This will likely be very similar to the past where a fire boat is moored at Joemma Beach and a medic truck is brought to the island and parked at N. Beach. As soon as the plan is fully vetted a broadcast email will be sent.

HMC Audit

The audit will be completed in the next few weeks. The 2017 -2018 fiscal year audit is planned to be conducted in December 2018 allowing HMC budgeting and finance to work from that audit.

Committee reports:

Roads - Mike Graham - minutes from Roads on the website

Water - Charles Smith to report

Maintenance - Gary Wanzong

Emergencies - Mike Shettlesworth

Policies - Mike Gage

Parks - Jim Davies

Rules - Max Hochanadel

Delinquencies

Total number - 14

Number with attorney - 7

Burn Ban Update

Pierce County recently upgraded the fire danger in the county to “Very high/Extreme”. Given these special conditions and the inaccessibility to the island, the Board has the authority to declare a stricter burn ban than is currently imposed by the State or County. (Yes, we know that there was a smattering of rain last week, but it didn’t change the extremely dry conditions on the island.)

Effective August 8, 2018, and until further notice recreational fires are still permitted in on Herron Island but only as identified below:

Allowed:

- Gas and electric barbecue grills are allowed.
- Wood pellet grills such as a Traeger are allowed.
- Gas fired patio fire pits are allowed.

Not Allowed:

- No open pit wood or charcoal fires are allowed.
- Charcoal barbeque grills are not allowed.
- Open flame items such as candles and tiki torches are not allowed.

Labor Day Holiday Ferry Restrictions

Combinations of any length (vehicle towing anything) and single vehicles longer than 25 feet will not be transported after the 12 NOON - 12:30 run on Thursday, August 30, 2018 through the end of the day Monday, Sept. 3, 2018.

Note: On Monday, Sept. 3th the Ferry will operate on the Holiday schedule which is the same as Sunday.

Dry Dock this Year!

It's that time again! This year the Charlie Wells will be going into dry dock for a much-needed tune up and overhaul. It will also receive an out-of-water inspection by the Coast Guard to certify the seaworthiness of the vessel ensuring your continued safety and that of the crew.

On early Saturday, morning, September 15th our ferry will be transported by our crew north to Seattle navigating through the Ballard locks to the Stabbert Maritime Shipyard. It is expected to be gone for approximately two weeks. No ferry service will be available on that Saturday.

For the benefit of new members, this is a recurring biennial event. Access to the island during this dry dock event is limited to members' private boats only. Long time island residents are very familiar with this event and either hunker down for the duration or take that long awaited vacation off the island. Emergency preparedness plans are implemented each time the ferry is gone for out-of-water maintenance. More information will be provided as we get closer to the event.

Photo by Claudia Ellsworth from 2012 Dry Dock

Save the Date - Small Docks Removal Party

Join volunteers, Saturday, October 13th at 9:00 am at North Beach to remove the Small Boat Docks for winter storage

All hands appreciated.

Ferry Access Reminder

Members are reminded that the crew has the responsibility to load and unload vehicles and passengers in a safe and efficient manner in accordance with HMC Rules, Coast Guard regulations and US Code 46 CFR 185. They also have the authority that comes with that responsibility.

Members and their guests or contractors are required to follow the crew's instructions when boarding or disembarking the ferry. The Ferry Access Policy can be found on the homepage of the HMC website (www.herronisland.org). Members are encouraged to read it and educate their guests on these requirements. Failure to follow the requirements can result in a Rules violation. This is a Class A violation with a fine of up to \$1000 for a first offense.

New Mailboxes at Mainland Available Soon

Cost: \$150.00 (one time fee)

5 or 6 Boxes will be available

Contact Jane Morgan (928) 821-1074 to reserve your box purchase.

Are You on the List?

HMC now has 383 Member email addresses on the notification list. If you want to get notice of the online Beachcomber, or get the latest on windstorms, power outages, water line breakages, or other news, please send an email to office@herronisland.org and request that your email address be added. To be used for HMC purposes only.

Roads Work Party - September 8th

The Roads Department will hold a work party on September 8th starting at 9:30 am. Meet at **North Beach** for work assignments. Please bring weed eaters and rakes. We will also need at least one pickup truck to haul cuttings. Maps have been created showing which area of the roads needs to be cut back prior to grading. Note: This is not a ditch cleaning work party, just roadside edges that have accumulated excess vegetation. Please join us for this important work party.

Lunch will be provided by the Boosters at 12:30 at the Community Center.

Thank you.

Mike Graham , Roads Chairman

Welcome, New Islanders!

HMC welcomes new Members to Herron Island:

- Jael Cuellar Chavez & Ann Leahy
- Joseph & Zhifang Denor
- Andrew Chalmers
- Christopher & Goldin Doles
- Jane Howard

Committee Members Needed!

Part of the success of Herron Island can be attributed to the volunteers who contribute their time and expertise to participate on our various HMC committees.

Three of our current committees are in need of new members:

The Policy Review Committee - This committee is chaired by Mike Gage and is chartered to make recommendations to create policies where there are none and to review and update policies that have not been reviewed in three or more years, or as needed. If you are interested in joining this committee, please contact Mike Gage at HMCMikeGage@herronisland.org.

The Parks Committee - This committee is chaired by Jim Davies and is chartered to promote and maintain safe and useable park grounds and equipment for HMC Members and guests. If you are interested in joining this committee, please contact Jim Davies at jada40@att.net.

The Roads Committee - This committee is chaired by Mike Graham and is chartered to improve and preserve the quality of island life through the proper management of island roads. If you are interested in joining this committee, please contact Mike Graham at HMCRoads@herronisland.org

BOOSTERS' 2019 Directory

Deadline: October 1, 2018

Robin Kelly is coordinating updates to the Boosters' 2019 Name and Address Directory. Please submit your changes and updates to Robin at 253.884.1883 or d_kelly@centurylink.net

In addition, we will be including paid advertising from contractors and businesses. Merry Kogut is coordinating the paid advertising. To advertise or **to suggest** advertisers, contact Merry at 253-265-0060 or merryakogut@gmail.com. Cost is \$50/full page or \$25/half page or \$15/quarter page and we'll print 150 copies.

Why Aren't Boats Allowed in the Swim Area?

A new sign has been placed at North Beach prohibiting boats in the swim area. This sign was necessary because there were reports that the rule wasn't being followed. Several past Beachcombers have addressed this requirement. And this rule has been in effect since, well forever. More recently this issue has become the subject of much discussion. At the July Board meeting it became the subject of some heated discussion. Parents and caretakers expressed concern for the safety of their children. Boats, kayaks, paddleboards and other hard plastic items are a danger to small children who simply wish to swim and wade in the area enclosed by orange floats. That's why it's call a "swim" area and why a swim platform is there. A paddleboard or kayak could easily hit or run over another child and injuries could result. Only children's *inflatable* float toys are allowed in the swim area. The area just outside the swim floats is available for boats, kayaks and paddleboards. And since all children should be supervised by an adult anyway, the area outside the orange floats should not present any additional risk to a child paddling there.

Septic Systems: Keeping them Healthy and Legal

One of our most precious resources is our clean and plentiful groundwater. Our health depends on it, as does the value of everyone's property. Properly designed, installed, and maintained septic systems are key to preserving that resource and reducing the risk of groundwater and surface water contamination.

Pierce County approves the size of a septic system based on the number of bedrooms in a dwelling. Adding sleeping quarters, guest rooms, etc. in excess of the number of bedrooms allowed by a septic system is illegal and can easily compromise our water quality.

Trailer owners are required either to be connected to an existing septic system or to collect and remove grey water and sewage from the island, unless the trailer is merely stored or being used for storage. Owners of portable toilets similarly must have them emptied or connected to a septic.

Pierce County has jurisdiction over the installation and maintenance of septic systems. You can find more information about that here: <https://www.tpchd.org/healthy-homes/septic-systems>.

Take care of your grey water and sewage so that our water can flow clear and clean for a long time to come!

Docking your Boat at North Beach

The North Beach Small Boat Docks are available to HMC members to dock their boats on a short term basis only. This rule was put in place (and voted on at the Membership level) to provide fair and equitable access to members wishing to utilize the small boat docks. Only members with HMC stickers and authorized guests (with fully completed guest passes) are permitted to park at the small boat docks. And for periods no longer than 24 hours. The Rules are clear and read as follows:

E-17 North Beach Boat Docks.

c. Boats may only be docked at the North Beach Boat Docks (in any location) for a continuous period of no more than twenty-four (24) hours. (Class B). This Rule shall not apply during any period of time during which the ferry is out of service.

Example of Permissible Use: Daily use of your boat, including a spin around the island, or boating over to the mainland or out into an inlet.

Example of Impermissible Use: Tying one's boat at the North Beach Boat Docks and moving it from spot to spot, or placing a boat on the dock and leaving it there day after day.

The docks are not intended to be used for summer moorage.

Please be fair to your fellow HMC members. If your boat has been there longer than 24 hours and does not meet the requirements described above, please remove it from the boat docks.

This is a Class B Rules violation with fines up to \$500.

Thank you.

Rainy Weather is Coming.....Clear those ditches!

Yes, it's hard to believe but the rainy season is soon to be upon us. Is your ditch ready for the onslaught?

Cleared ditches and culverts are very important in keeping the rainwater contained and off of the roads. (Mother Nature does enough to water the roads!)

HMC Rules require members to maintain the ditches and culverts around their property and reads as follows:

C-9 Ditches and Culverts

- a. Owners shall maintain ditches and culverts between their property and the maintained roadway to keep them flowing freely and to prevent erosion and flooding(Class C). Work done by property Owners to keep roadside ditches and culvertsclean does not require a permit or permission from HMC.
- b. Ditches may not be covered over and culverts may not be installed without the prior written approval of the Board or the Island Manager after the submission of plans for the work.

The Roads Committee is requesting that your ditch is cleared of debris or any new growth that may have appeared over the summer by September 1st. Any ditches that have not been cleared prior to grading will be cleared by an off-island contractor and charged to the member in accordance with the member approved fee schedule. Please do your part.

Thank you!

**Property Lines**
Do you know where yours are?

Several members have asked questions regarding the location of the road right-of-way and ownership of trees. The HMC right of way is 50 feet wide. In general, telephone poles are located between two to three feet inside of the HMC right of way. If the poles are on your side of the road, your property line is roughly two to three feet behind the poles. If they are on the other side of the road, measure 48 feet from the poles to your approximate property line. HMC in the past has requested that any owner who has a survey conducted on their property give HMC a copy for our files. The more control points we have the better we can determine ownership in the future.

Excerpted from Nov. 2017 Beachcomber President's Message
