

There will be a Community meeting on Saturday, April 10, 2010 from 1:00 PM to 3:00 PM to address membership questions and concerns about the upcoming Water System Upgrade Ballot. The HMC Board is committed to providing members with complete and accurate information concerning all three Ballot issues. There may be follow-on Community meetings as needed before the May 8, 2010 Special Meeting when the ballots will be counted.

The meeting will be held at the Community Center immediately following the regular Board meeting and will include the Board and members of the Water Project Committee (WPC) available to address your questions. All HMC members are encouraged to attend. We look forward to seeing you there.
