

HMC will have a trial period beginning Tuesdays only, May 11 through June 1 for an extra ferry run at 9:30/10:00.

This will not be added to the published ferry schedule until it is deemed permanent.

The thought is to be able to move more traffic as shuttles have been constant most days now. If it is successful the board will determine whether to continue with the extra run and whether it is only for summer months.

Thank you.
