

We will help you clean up your property!

The Key Peninsula Fire Department is looking for cars and trucks to use in auto extrication training. If you have an old vehicle that you would like to have hauled away, we can make that happen for you. The vehicles do not need to be running, but we do need them to have titles or release of interest paperwork. Call the Key Center station at 253-884-2222 and leave your contact information with vehicle information and address for Training Chief West. We will cover the towing fees and give you a donation letter for tax purposes. Best of all, your donation will help your firefighters training to save lives.
