

Notice to all HMC Members  
May 20, 2009

Information is circulating around the island that is not only inaccurate, but designed to cause fear and anxiety in an attempt by some members to sway the outcome of the upcoming election. Information such as the legal right of certain candidates to run for Board positions have recently surfaced. Anonymous letters are circulating. Please be assured that as an association who is legally bound by the laws of the state of Washington, all of the candidates who have applied for a Board position are members in good standing and are exercising their legal right to apply for Board membership.

Other inaccurate information is surfacing that does not bear repeating because it has no basis in fact. It's unfortunate that this kind of behavior occurs. And especially disturbing that the issues appear to be timed to coincide with the upcoming election. The Board strongly urges you to come to your own conclusion and exercise your right to vote for the candidate of your choice.
