HMC Newsletter

September-October 2017

## President's Message

At the September Board meeting Monique Pizzitola, our current Island Manager, announced her resignation. Her reason for leaving was that she felt the Island Managers position requires a full time employee and she was looking for part time work. The Board has started the process to find another person to fill this vacancy and redefine this position. The Board wishes Monique success in finding the position that meets her criteria. During the interim the Board Members will be stepping up and performing the Island Managers duties.

A question was asked at the Board meeting about how housing is selected for our stand-by Captains. First, the owner must let the office know if they have housing available. The office does not offer housing based on rumor, nor does HMC sign contracts with members to provide housing. Currently the membership has authorized the island to spend \$40 per night. In the 2017 – 2018 budget this was raised to be up to \$100. The Island Manager will select the best offer and place the Standby Captains accordingly. The best place for a Standby Captain is housing that provides a private entrance, bathroom and cooking facilities. If a Standby Captain is dissatisfied with the quarters other housing will be selected.

As the board discussed in Saturday's meeting, we are moving forward with an RFI, Request for Information, from companies that provide outsourced ferry operations. An RFI is purely for information gathering purposes and does not indicate that we would be issuing a Request for Proposal (RFP) or awarding a vendor contract. It is to help the Board and the membership form a ferry operations strategy that best meets the needs of the membership in terms of service and cost.

HMC ferry operations is our biggest expense and, it is the underpinning of our community - providing access between the island and mainland that enables resident

members to commute to jobs, plan appointments and errands, and for non-resident members, visitors, and vendors to have predictable access to and from the island. Our aim with this RFI is to get a sense of respondents' businesses and value they can add so that we can determine whether we should issue a formal RFP tailored to our unique needs. If we were to issue an RFP, no contract would be awarded without thorough analysis that would culminate in a membership vote.

The RFI is just one way we're evaluating whether we can reduce costs (or hold them steady) while increasing service (number of runs, member satisfaction, etc.). As a board it is our fiduciary responsibility to look at all of these levers - from outsourcing, to scheduling, to any new ideas that can help manage costs and strengthen service.

Once again we are asking the membership to fill out completely the guest passes. The crew has been instructed to not take incomplete passes either from the member or their guest. With the increase in the amount of ferry traffic we cannot delay loading while the deck hand / purser completes the pass either for your contractor or guest.

As our membership evolves, with new generations of long-time families and new members from throughout the region and country, the Board wants to encourage more people to consider running for a board seat next year. Our board can absolutely be bigger than five members, by a vote of the membership, and to serve the growing and changing needs of the membership, we need a board that reflects the diversity of our membership. This is an active, hands-on, and unpaid role. If you're not involved today, consider joining a committee, speaking with current and former board members, and reflecting on how you might contribute your unique talents to strengthening our board and building a healthy and sustainable community on Herron Island.

(Continued on Page 2)

President's Message  
(Continued from Page 1)

Questions were also asked about a recent repair bill for the ferry engines. MER Equipment, Inc. included this information on their invoice: "Found fuel leaks in the high pressure common rail. This is a safety hazard as fuel pressure exceeds 28000 psi. Returned with new HPCR and fuel lines. Injector lines have to be replaced when removed. After making repairs we got a Water In Fuel Alarm and Suction Control Valve Mismatch. Returned with new WIF sensors and two new Suction Control Valves. Units are performing to spec." Inspection of these components has been added to our maintenance schedule. This was a safety issue and has been addressed.

Alan DeGood has scheduled the removal and maintenance of the Small Boat Docks on October 21, starting at 8:00 am. If you have enjoyed having the docks available this past season, please come out and help maintain them. Alan has plans for cleaning the docks and painting the access ramp.

**Temporary Shuttle Suspensions**

The dolphin construction project is doing well and is within the contracted schedule. However, the Board has been notified that in order to drive the angled support pilings into the water there is a construction crane hammer that must hang over the ferry slip. Because this would be a safety issue, the construction crew has asked us to suspend all shuttle operations during that time. This typically requires 45 minutes to 1 hour of down time. The most likely time for these shuttles suspensions would be on Thursdays.

The regular scheduled ferry runs will continue.

We are very lucky that regular ferry service has not been interrupted by this construction, so we need to make allowances for the occasional shuttle run suspension.

Or fax to (202) 690-7442 or email to

[program.intake@usda.gov](mailto:program.intake@usda.gov).

Beachcomber news items must be submitted by 5:00 PM on the Wednesday after the monthly Board meeting on the second Saturday of the month. Items MUST be emailed in electronic format to [beachcomber@herronisland.org](mailto:beachcomber@herronisland.org). Include your name and phone number in case any questions arise. Paid advertisements are to be arranged with the HMC office PRIOR TO PUBLICATION.

## Island Manager Report September 9, 2017

We didn't have any work parties last month but I do have a couple of volunteers that have gone beyond the call of duty and want to thank publicly. **Chris Gorman**, a new island member, has put in his valuable time and energy and has driven the water truck all summer. He has also made housing available to our stand by captains. **Betty Eccles** who has continued to oversee the community garden and has made improvements over the summer to make it even more attractive. Thank you both. Members, if you recognize goodwill and spirit and efforts from your neighbors please let me know so I can thank them for their services.

Ferry Operations: I am continuing my search for stand by deckhands. I have conducted a couple of interviews and have moved forward with back ground search and drug testing of one candidate. I am also actively searching for a permanent part time Captain. I have one interested candidate from our stand by pool and am going over the parameters of the position with the board to find the right fit. If you know anyone qualified to captain our ferry please send them my way.

There is continued stress regarding ferry access policy. Now that we have everyone using the vehicle stickers correctly, it is time to address guest passes. I will forward a communication to everyone describing in detail how to fill out the pass and why we need the information. For now, PLEASE sign the guest passes for your guests and contractors. I have instructed the ferry crew to not accept unsigned passes. Thank you.

I continue to look for ways of improving current processes. I have come up with a very rough draft of a three-crew ferry system that follows coast guard regulations regarding rest periods and hours worked. It also extends the ferry hours of operation into the late evening allowing commuters more opportunities to access the mainland. I will share with the board for input and comments.

The receptionist experiment is going very well. Carolyn is still in training mode, but has had opportunity to get to some of her back work accomplished. I have used the extra time given to me to organize and prioritize the office and the IM duties. As training is near complete you may notice that Carolyn will not be available as often as she has in the past. Please feel confident to talk to Carol about your needs and they will get addressed.

Attention all volunteer firefighters: We have applications that must be complete and turned in to the fire district no later than 4pm September 29<sup>th</sup>. There is a written test for applicants on October 21<sup>st</sup> at 9am. Pre-academy starts January 2018. This is the only opportunity for the coming year to become a volunteer fire fighter on Herron Island.

I love working for Herron Island. This position has the most wonderful opportunities to make a positive contribution to the lives of its employees and members. It is my professional opinion that the Island Manager position needs to be full time. I have given the board my resignation and am working out my termination date. The reason for leaving is simple, I was looking for part time work.

---

### No Beachcomber in October

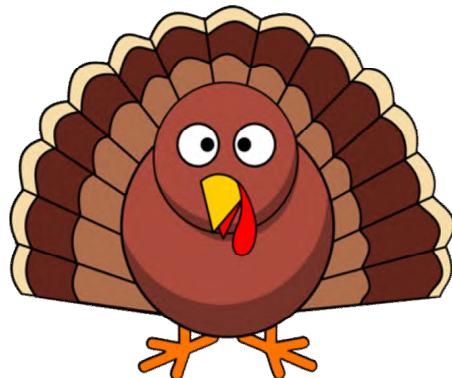

The Beachcomber is published nine times per year. There will be no issues in October, December, or February.

## Annual Thanksgiving Potluck

Saturday, November 11<sup>th</sup>, at the Community Center  
Set up 3:00 pm – Social Hour 4:30 pm – Dinner 5:30 pm  
The Boosters are hosting the Herron Island Annual Thanksgiving  
Potluck and everyone is invited.

The Boosters will provide the turkeys and a ham – however we need volunteers to cook them. Please sign up to bring side dishes, salads, desserts, etc. We are also in need of gift basket donations to be raffled off after dinner. Items such as small tools, fishing lures, dvds, books, cooking, grilling, board games, music cds, sport themes, beauty – bath, and treats are just examples. A signup sheet is in the community center, or I can be reached by email. [ljm7015@yahoo.com](mailto:ljm7015@yahoo.com)

Thanks, Lisa McCormick

## Burn Ban on Herron Island

Effective August 2, 2017 and until further notice a total burn ban was called by the Island Manager and the Board of Directors. This burn ban included all indoor and outdoor burning with the exception of gas grills and fully enclosed pellet grills. ([Update: On 8/15/17 the Board lifted the ban on all barbeques and regulation fire pits. NO brush burning.](#))

Fire risk on the island is very high at this time and HMC has the authority to expand a County burn ban in accordance with HMC Rules Section F, Paragraph F2 which reads:

**“Everyone must comply with all additional requirements and restrictions imposed by the Board during critical fire danger conditions. Note: Given the special conditions and inaccessibility of the island, the Board has the authority to declare a burn ban that is more strict than one imposed by the State or County. In fact, the Island may be subject to a burn ban even if the rest of Pierce County does not have a burn ban in effect.”**

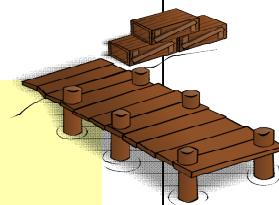

This is a Class A Rules violation with fines up to \$1000 for a first offense.

Thank you for your cooperation.

# Boat Dock Removal Party

## SAVE THE DATE!

Volunteers needed! Please come to North Beach and help the Docks chairman remove the boat docks for the upcoming winter months. The dock approach will also be power washed in preparation for painting at a later date.

Dock Removal Party:

Saturday, Oct. 21st at 8:00 am

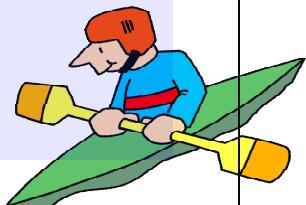

Docks Chairman—Alan DeGood (620) 242-6301

## Please move your Kayak

The North Beach landscaping project is ready to start and all kayaks must be moved away from the construction area parallel to the beach. Room is needed for construction equipment to move freely around the area.

Please move your kayak over to the north side of the pavilion or take them home so the work can begin. And as a reminder all kayaks will need to be removed from North Beach next month when the boat docks come out of the water.

Thank you.

## HOW COME I NEVER HEARD ABOUT THAT?

Several members recently expressed concern and frustration about not having heard about the recent ferry cancellations that occurred in the past month due to crew shortages. Notification of these cancellations was provided to the membership three weeks in advance to ensure that members had an opportunity to plan ahead. HMC Management attempts to keep everyone up to date on all such notifications through several means of communication.

**Broadcast email communications.** Our master distribution email list is used as a means to provide members with information of importance and alerts as they occur. If you are not already on this distribution list, please send an email to the office ([office@herronisland.org](mailto:office@herronisland.org)) to be placed on the list. Please note that your email address will be kept completely confidential and emails sent from the office will not reveal your personal address to other recipients.

**The Island Website** ([www.herronisland.org](http://www.herronisland.org)). Members can find important information about the island on this website. HMC Management posts alerts on the website to advise Members about such things as an unplanned ferry schedule changes, power outages, or other pertinent information that is of interest to the Membership. You are encouraged to check the website often.

**The Beachcomber.** This island newsletter is published nine times a year and is posted on the website for all HMC Members. The President's Message leads off as "front page news," and discusses the highlights of island life, including the status of current and proposed projects to improve our island community. The Beachcomber also incorporates the Island Manager's Report, and provides web links, telephone numbers, and other contact information so that Members can obtain answers to any questions they might have about what is happening on Herron Island.

**Since it is not possible for the Board or office staff to personally and individually advise each Member about ongoing projects, initiatives or alerts, it falls to the Members to seek out information using the communication tools that are available.** Members are encouraged to express their opinions and also to ask questions via e-mail at [memberinput@herronisland.org](mailto:memberinput@herronisland.org). The Board monitors e-mails received at this address frequently, and strives to address each inquiry promptly. And of course, Members are free to call the office at any time.

## HI DIRECTORY

**September 20th** is the cut-off day to be included in the 2018 HI Directory. We want to finish it up and get it to the printer, in order to have it available by early November. **If you would like to be included, but haven't already sent in or given your information, please send it to Robin Kelly at [d\\_kelly@centurylink.net](mailto:d_kelly@centurylink.net)**

You can have any or all of the following information included:

Last name, First name(s)  
Island Address  
Mailing Address  
Phone # home and cell(s)  
Email address

We are making every effort to have correct and current information. If you have any doubts about your data, please contact Robin at the above email address. Remind your island friends and neighbors, so that they can be included if they would like to be. This is especially important in the case of new island members. We have a data base now that we can update and add to, as needed. It will be nice to have the latest edition printed and available.

### Temporary Files

Some Members have informed us that they are not getting the latest website updates on their computers. Some older browsers seem to be caching files in an attempt to speed up internet access. If you suspect that this is happening to you, try the "Delete Temporary Internet Files" option in your browser.

## ATTENTION, PHOTOGRAPHERS: IT'S CALENDAR TIME!

If you have photos depicting Herron Island life that you would like to have considered for the 2018 calendar, please send them to Joseph Pentheroudakis at **jpenthaleroudakis@gmail.com** by **September 25th**. Limit 2 photos per person. Given the format of the calendar, landscape orientation will work best. High-resolution photos preferred (300 pixels per inch, 7" high by 10" wide). We can adjust format and resolution if your photo is selected.

If you have any questions, please contact Joseph at the above email address.

# Smile

## EMERGENCY PREPAREDNESS TIP OF THE MONTH

### MEDICINE CABINET ESSENTIALS

A well-stocked medicine cabinet can be a life saver. It definitely provides a sense of security. The **most important** task is to check for out-of-date medicines and dispose of them properly. Out-of-date medications can not only be ineffective, they can also be dangerous.

Include the following when restocking the Medicine Cabinet:

**Aspirin** - This is the first line of defense if a heart attack is suspected. *Don't be without it.*

**Benadryl** - Everyone should have Benadryl 25 mg tablets in their medicine cabinet.

Benadryl will work for hives and itching from pretty much anything (poison ivy, animal allergies, medication allergies, food allergies).

**Epi-pen** - You will need to discuss having this on hand with your physician. It is a prescription item and you must know how to use it correctly. It can be a life-saver in the event of a severe allergic reaction such as a bee sting.

**Hydrocortisone cream** - A 1% topical hydrocortisone cream is essential for relieving itching and inflammation from many skin lesions. Use it to help with any skin issue that ITCHES: bug bites, poison ivy or any contact dermatitis (an allergic skin reaction from something that touched you).

**Pain relievers and fever reducers** - The two to consider are acetaminophen (Tylenol or generic equivalent) and any NSAID (non steroidal anti-inflammatory drug) which includes ibuprofen, Advil, Motrin, or Aleve.

**Antibiotic ointment** - For cuts and scrapes you should have Polysporin, Neosporin or a generic equivalent in your medicine cabinet. You can wash the area with warm water and soap and apply one of the above topical ointments twice a day for a couple of days with a loose band aid.

**Band Aids** - Remember to have an assortment of sizes. Gauze and an elastic wrap should be on hand as well.

**Antacids** - These help for heartburn, upset stomach and bloating.

**Allergies** - These are now over the counter. The non-sedating antihistamines (Claritin, Zyrtec, or generic equivalent) should not make you tired and can work for most allergy symptoms.

**Cold and cough** - Let's face it the over the counter cough medicines don't work great if at all. What will help some of the cold symptoms (stuffy nose, ear congestion, and sinus pain) is a decongestant like Sudafed.

**Diarrhea** - Imodium (Loperamide) is recognized as one of the best over the counter options.

(Continued on Page 12)

## **Emergency Preparedness**

**(Continued from Page 11)**

**Nausea** - There are many anti-emetics that require a prescription but Dramamine over the counter tablets will work well. You can also use them for prevention of motion sickness.

A well-stocked medicine cabinet will give you peace of mind and allow you to respond if the unexpected happens.

**Keep all of the above safely away from children.**

- *For further information contact the Emergency Preparedness Chairman,  
Mike Shettlesworth (253) 884-6919*
- 

# **Important Reminders**

### **Due Date Changing for Monthly Billings**

Effective October 1, 2017 the due date for all billings is being moved from the last day of the month to the 25th of the month. This was discussed at a recent Board meeting and is being imposed to help streamline the administrative duties currently in place.

### **When may Members Charge their Ferry Fares and be Billed for those Charges?**

Ferry charges are only permitted for service providers and the provider's guest pass must be listed in the name of the company; not an individual person's name. Members may not charge ferry fares for their personal guests.

### **New Administrative Fee for Charging Ferry Fares**

Effective October 1, 2017 there will be a \$5.00 administrative fee for members who have charged ferry fares during the month. The fee will be added to the monthly statement for ferry charges. The fee will also be imposed when service providers come to the island using a member's Form 18. This new fee was discussed by the Board Treasurer at the June Board meeting and was part of the Fee Schedule members voted on as part of the 2017/2018 budget.

**Board Member Email Addresses**

HMCMikeGraham@herronisland.org

HMCJanetPodell@herronisland.org

HMCMikeGage@herronisland.org

HMCKarenStarns@herronisland.org

HMCFerdReichlin@herronisland.org

Please use these email addresses for all future communications to Board Members. They can be accessed on our website ([herronisland.org](http://herronisland.org)) under the HMC Board tab.

**Committee Email Addresses**

HMCRules@herronisland.org

HMCTechnology@herron.island.org

HMCRoads@herronisland.org

HMCEmergPrep@herronisland.org

HMCLandUse@herronisland.org

HMCTransportation@herronisland.org

HMCTechnology@herronisland.org

**Mailboxes**

If you would like to obtain a mailbox on the mainland contact Judy Gage at 253-884-9933. Leave a message that includes your name and phone number so you can be contacted.

Thirteen new mailboxes will be available provided there is enough interest to fill them. The approximate cost would be \$100.00 per box. The Cluster Box Unit would be installed later this fall.

While Board approval was required to add another mailbox cluster to the mainland property, this is a member-sponsored project and is not being managed by HMC.

There are very few Stop signs on Herron Island but they were put there for a reason. The Stop signs are located at key intersections around the island where 4-way visibility is limited. And we have had a few "near misses" over the years that could have resulted in injury to people, pets, or our beloved deer.

Please follow the rules of the road and treat these signs as you would on public roads.  
Thank you.

### Lending Library

A new lending library has been installed at 1216 West Herron Blvd at Joyce Major's house near the road. Help yourself to a book and leave one in its place. Enjoy!

### Package Delivery

If you order packages to be delivered to the mainland terminal, please track their delivery so you can be available to pick them up or make other arrangements. It is not the responsibility of the ferry crew.

## Rainy Weather is Coming

Believe it or not the rainy season will soon be upon us. (Remember last winter?) Is your ditch ready for the onslaught?

Cleared ditches and culverts are very important in keeping the rainwater contained and off of our roads. (Mother Nature does enough to water the roads all by herself!)

Please make sure your ditch is clear of debris or any new growth that may have appeared over the summer.

Thank you!

## Boat and RV Washing

The Herron Island Rules (on the website) specify that boat and RV washing must be done on the owner's property and with the owner's water supply. A quick rinse at North Beach is OK to remove the salt water, but take your boat, car or RV home if it needs a thorough washing.

Thank You!!

## Welcome, New Islanders!

HMC welcomes new Members to Herron Island:

- Cody & Heidi Traicoff
- Casey Collins
- Dana & Diana Postlewait
- Ken Pillipson & Cynthia Spencer

## Are You on the List?

HMC now has 363 Member email addresses on the notification list. If you want to get notice of the online Beachcomber, or get the latest on windstorms, power outages, water line breakages, or other news, please send an email to [office@herronisland.org](mailto:office@herronisland.org) and request that your email address be added. To be used for HMC purposes only.

## Herron Island Calendar

Check the official Herron Island Calendar on the web site for committee meetings, activities and times. Click the "Calendar" button in the left column of the Home Page.

### BEACHCOMBER INPUT POLICY

The Board is the owner and publisher of the Beachcomber. The Board approves Beachcomber articles and advertisements and has the right to refuse to publish items submitted. Beachcomber news items must be submitted by 5:00 PM on the Wednesday after the monthly Board meeting which is on the second Saturday of the month. Items MUST be emailed in electronic format such as word or publisher to [beachcomber@herronisland.org](mailto:beachcomber@herronisland.org). Include your name and phone number in case any questions arise. Paid advertisements are to be arranged with the HMC office PRIOR TO PUBLICATION.

HMC Board of Directors

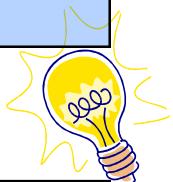

### Reminder

Members returning to the Island for the first time after a prolonged absence are reminded to run their outside faucets long enough to clear any debris out of the pipes before running it inside the home. This should save headaches later.

### Fallen Behind on your Assessment?

If you owe \$200 or less, you may get access to the island by paying the delinquency in cash to the deckhand. At the March 14 meeting, the Board increased the limit from \$100 to \$200.

### Website Photos

If you have any photos from island activities that you would like to share on our website, please send them to [webmaster@herronisland.org](mailto:webmaster@herronisland.org).

### Concerns or Ideas

All Members are invited to voice their concerns or ideas by using the Member Input email address, contacting the Board Members or the HMC Office:

[MemberInput@herronisland.org](mailto:MemberInput@herronisland.org)

### Reimbursements

Requests for reimbursement must be accompanied by a receipt and received by the office by the Thursday before the Board Meeting to be included in the list of bills to be approved by the Board. Failure to get your bill in on time will result in a delay in payment until the following month.

### Utility Locating

What happens when 8-1-1 doesn't get it right?

First, thanks to all of you who have been calling 8-1-1 to get utilities located and marked before construction. Unfortunately, the locate system is good, but not perfect. Recently the installation of a phone line across East Herron Road resulted in about a 24 hour phone and Internet outage. Quite simply, the phone line wasn't where it was marked. CenturyLink came out the next day to make the repairs and is investigating the problem with the locale. The moral of the story is that no one really knows what's underground until they dig. Thanks to everyone who worked on getting this resolved. If there's more to the story, we'll let you know later!

### Ferry Brochure

A printable ferry brochure, along with the ferry schedule combining summer and winter schedules, is available on the HMC website at [www.herronisland.org](http://www.herronisland.org). Check under Ferry Schedule and Printable Brochure.

Thanks to Terrill Chilson for preparing this simpler version of the old schedules.

### Tide Tables

Plots of the monthly tide tables are available on our website ([herronisland.org](http://herronisland.org)). The plots are for nearby McMicken Island, which is the NOAA data point closest to Herron Island.
